

Driver Ed is just around the corner!

Another school year starts...

At Manitoba Public Insurance, we're proud to take a leading role in helping high school students become safe drivers. Soon, our Driver Education Program will start, helping *you* to learn to drive safely.

Your school's role and ours

Your school's role is to provide the place where you can take your Driver Ed classes. But its role ends there.

Our role is to run the program. We want all 15 ½ year old students and older to have the chance to join, and learn.

So, if you have any questions or concerns about our program, call us at 1-800-261-9928. *We have the answers.*

Tips to help you enroll smoothly

- Watch for notices telling you when and where to register. You'll see these notices well beforehand.
- Avoid being turned away by making sure you'll be at least 15 ½ when you're registering.
- When it's time to register, go to the assigned room in an orderly way. *Queue jumping, pushing or giving your age falsely may disqualify you from taking the program!*
